

Maximum Marketing Exposure and Global Partnership

Over 80,000 industry decision makers or influencers of significant companies make up CPRJ's readership. In addition to the controlled circulation of 29,670 copies per issue, CPRJ has extra distribution at more than 30 key global and local trade shows, including K, NPE and Chinaplas, among others, offering advertisers the chance to reach around 1 million show visitors. Moreover, CPRJ works closely with over 10 leading organizers of plastics and rubber exhibitions and other well-known industrial associations, such as Messe Dusseldorf (K 2010), The Society of the Plastics Industry (NPE 2009), Plastindia Foundation (Plastindia 2009), Promaplast (Macplas 2007), VDMA, Austrian Trade Commission, ASSOCOMAPLAST, The British Plastics Federation (BPF), Egyptian Plastic Exporters & Manufacturers Association, Organization of Plastics Processors of India (OPPI), Philippines Plastic Industry Association (PPIA), Thai Tool & Die Industry Association (TDIA) and Vietnam Plastics Association (HCMC), etc.

Reader Commendations

WANG Kerong, Deputy Manager, Uniden Electronics Products (Shenzhen) Co., Ltd.

The article, "Innovations Enhance Cast Film Production Efficiency", is helpful to my company as the introduction of the application of innovative techniques can help us enhance our efficiency.

[Jun/Jul 2008 Issue](#)

SONG Yuyin, Factory Technical Director, Shangdong Dezhou Shihua Chemical Factory Ltd.

China Plastic & Rubber Journal (CPRJ) is the most comprehensive and leading publication in the territory.

[Apr/May 2008 Issue](#)

YAN Jiexiang, Engineer, Huizhou Xuhui Electronics Co., Ltd.

Thank you for providing me with technical knowledge as well as detailed information of suppliers — both are of great benefit to our company.

[Apr/May 2008 Issue](#)

BAI Zhiwei, Procurement Commissioner, Guangdong Strong Group Co., Ltd.

The contents of CPRJ are very concise. The advanced equipment introduced in the articles, "Technology Upgrade in Thermoforming Facilities" and "Italian Made Safe Granulators", is of practical value to me.

[Feb/Mar 2008 Issue](#)

WANG Zhangqing, General Manager, Shandong Plastic Products Experiment Factory Ltd.

CPRJ is highly readable. The articles, "Current Status and Development Trends of Plastics Machinery in China" and "International Development Trends of Chemical Management and its Industrial Applications" are importantly helpful and valuable for our purchasing of equipment and product development as well as for environmental management and protection.

[Dec 2007/Jan 2008 Issue](#)

PANG Xiping, Manager, Dongguan Weibang Plastic Machinery Factory

The market analysis of the plastics industry has deepened my understanding of the global market demand.
